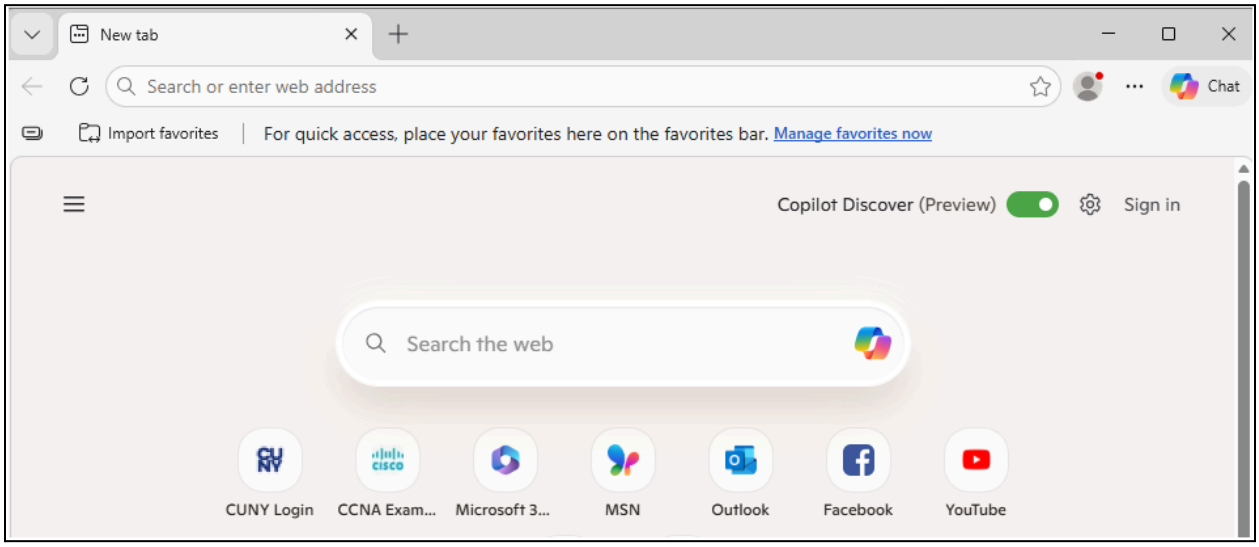
Web Browser Security

Autofill and passwords

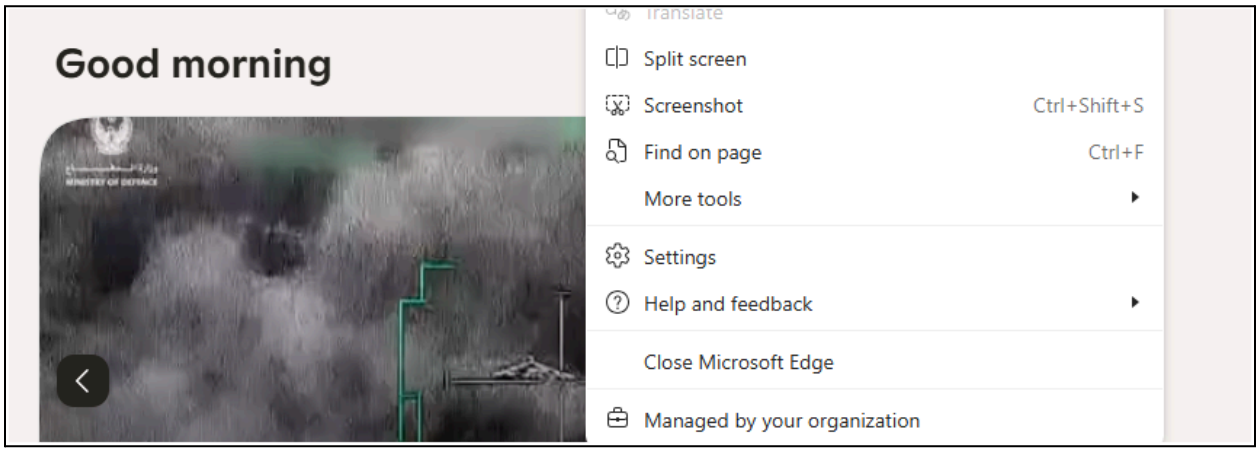
Passwords

Clicked on the **three dots** on the top right

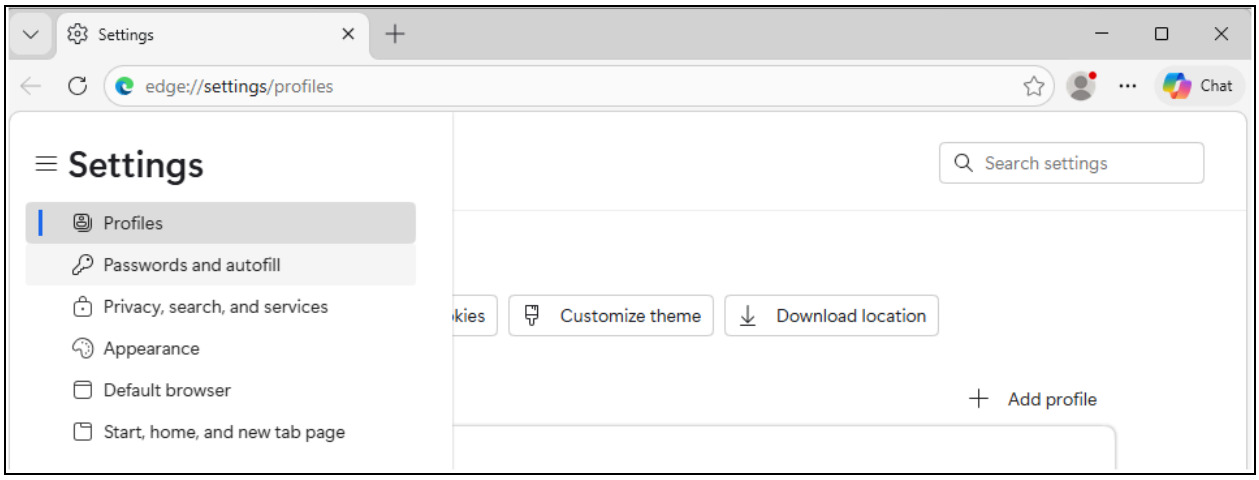
Or **edge://settings/profiles**

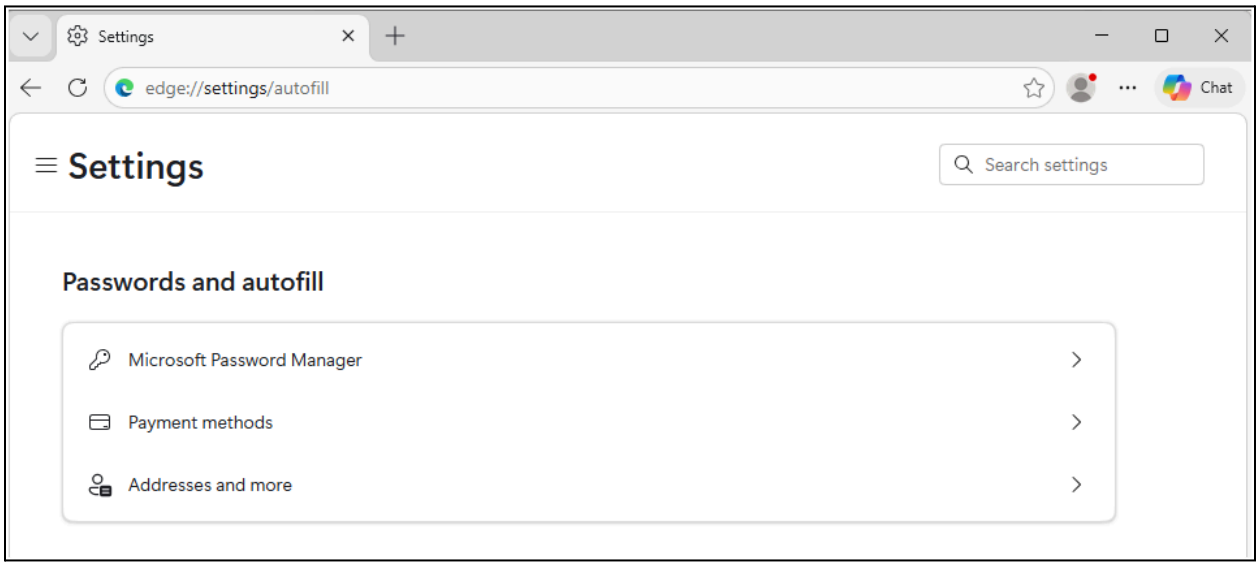


Click settings

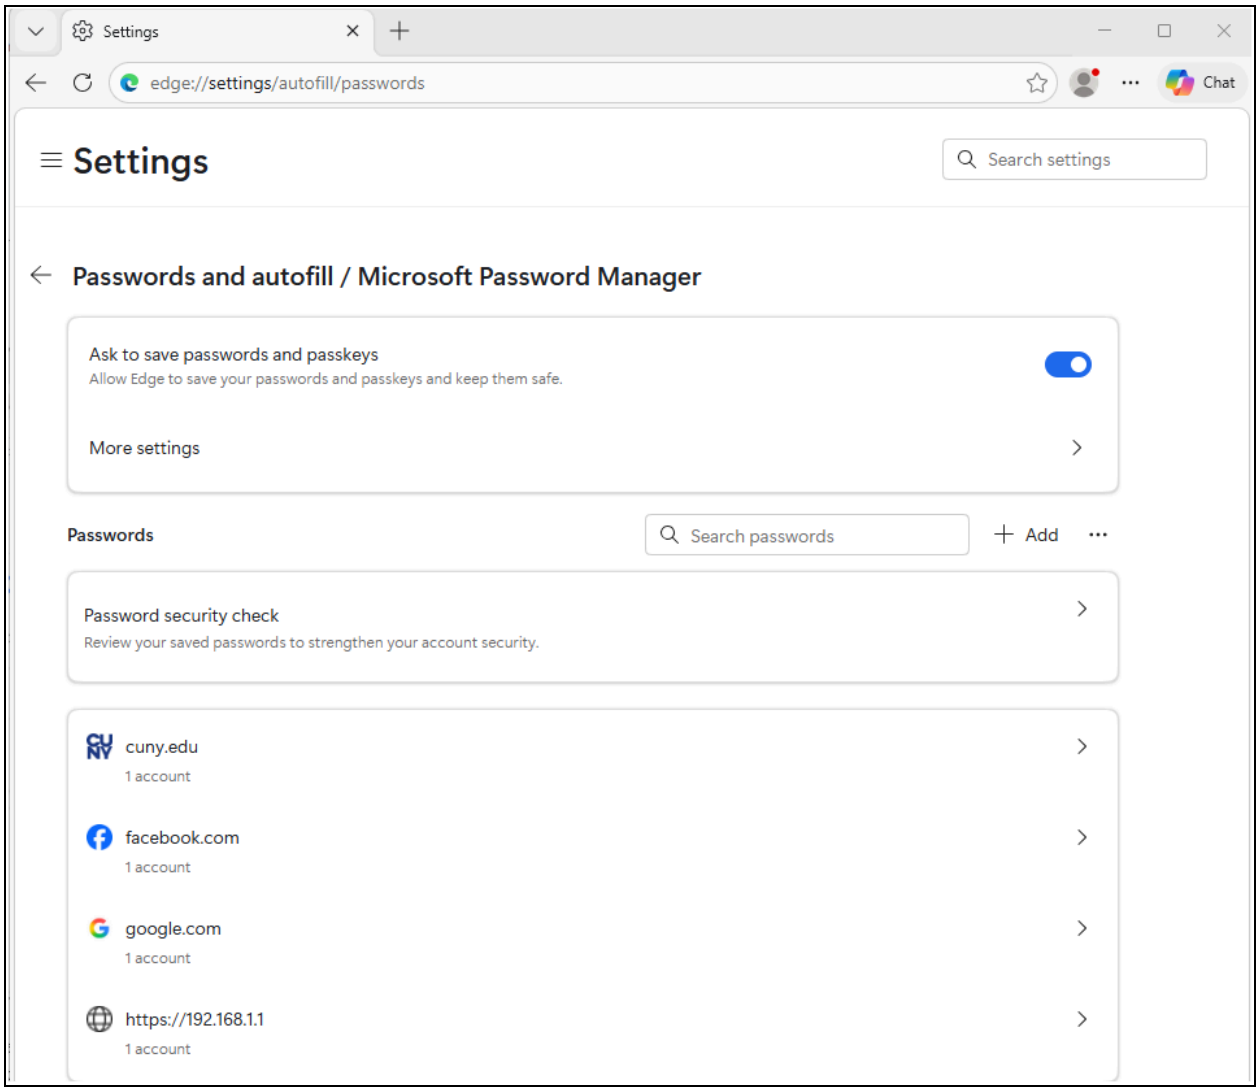


Clicked on the **3 horizontal lines** on the top left and click Passwords and Auto fill



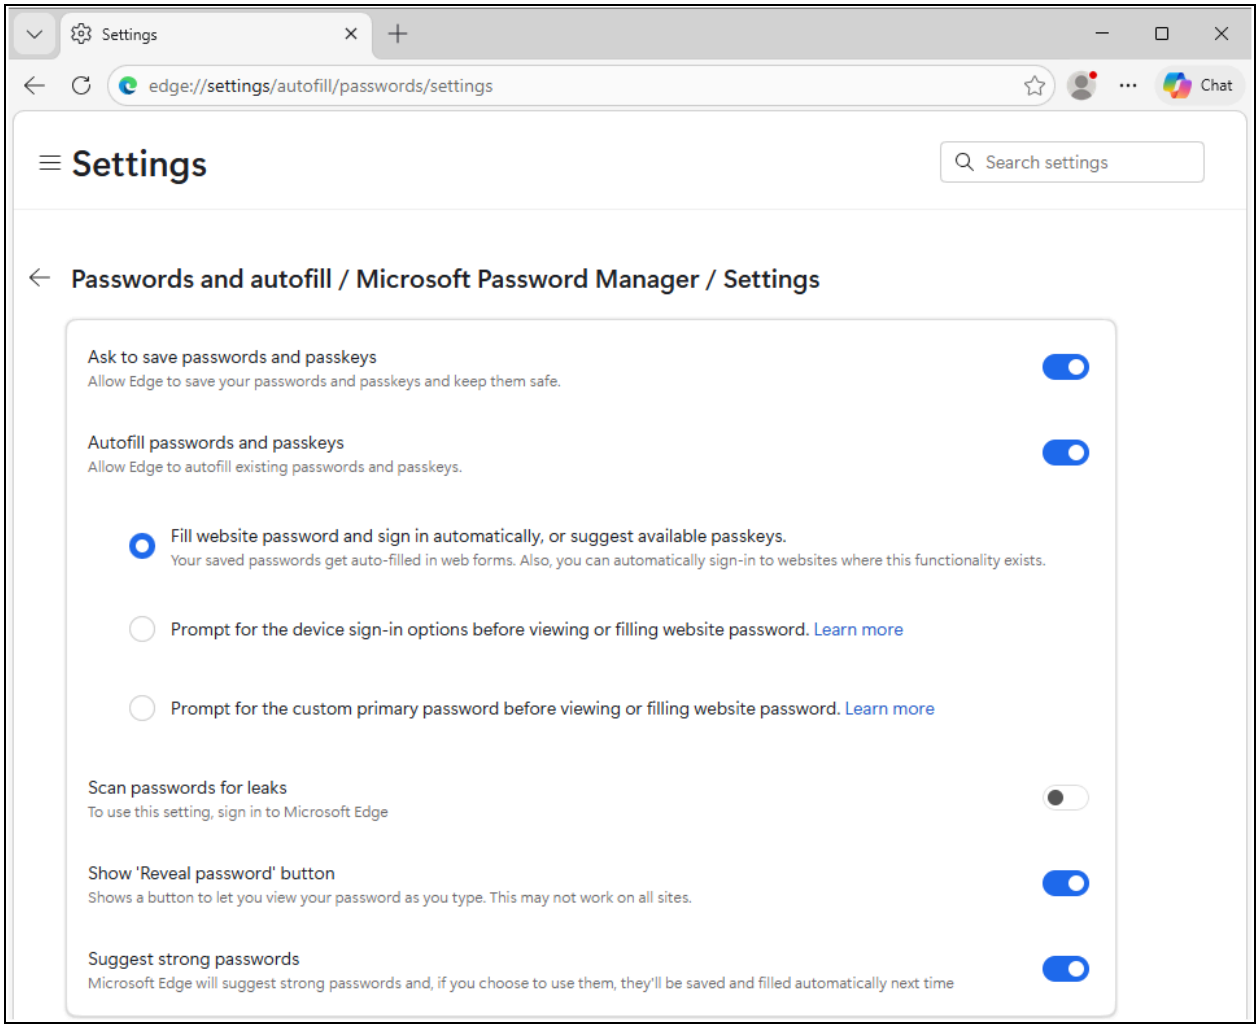


Click **Microsoft Password Manager**



First you can choose to enable **Ask to save passwords and passkeys**. If you enable it, it will save you time from manually typing your usernames and password everytime you login.

Click **More settings**



Enable **Prompt for the device sign-in options before viewing or filling website password**. Enter your username and password when prompted. And choose **Always ask permission**, this will ask you for username and password before its autofill.

Enable **Scan password for leaks**. Note you must be signed into Microsoft Edge.

Disable **Show 'Reveal password' button**

Enable **Suggest strong passwords**.

The go back (click the back arrow top left)

Click on **Password security check**

Enable **Check passwords for 4 sites and apps**

Passwords and autofill / Microsoft Password Manager / Password security check
Checked passwords for 4 sites and apps
Review your saved passwords to strengthen your account security
Check
Reused (2)
Weak (3)
Use unique passwords for every site or app
If someone discovers a reused password, it can be used to access your other accounts.
2 accounts using same password

Change

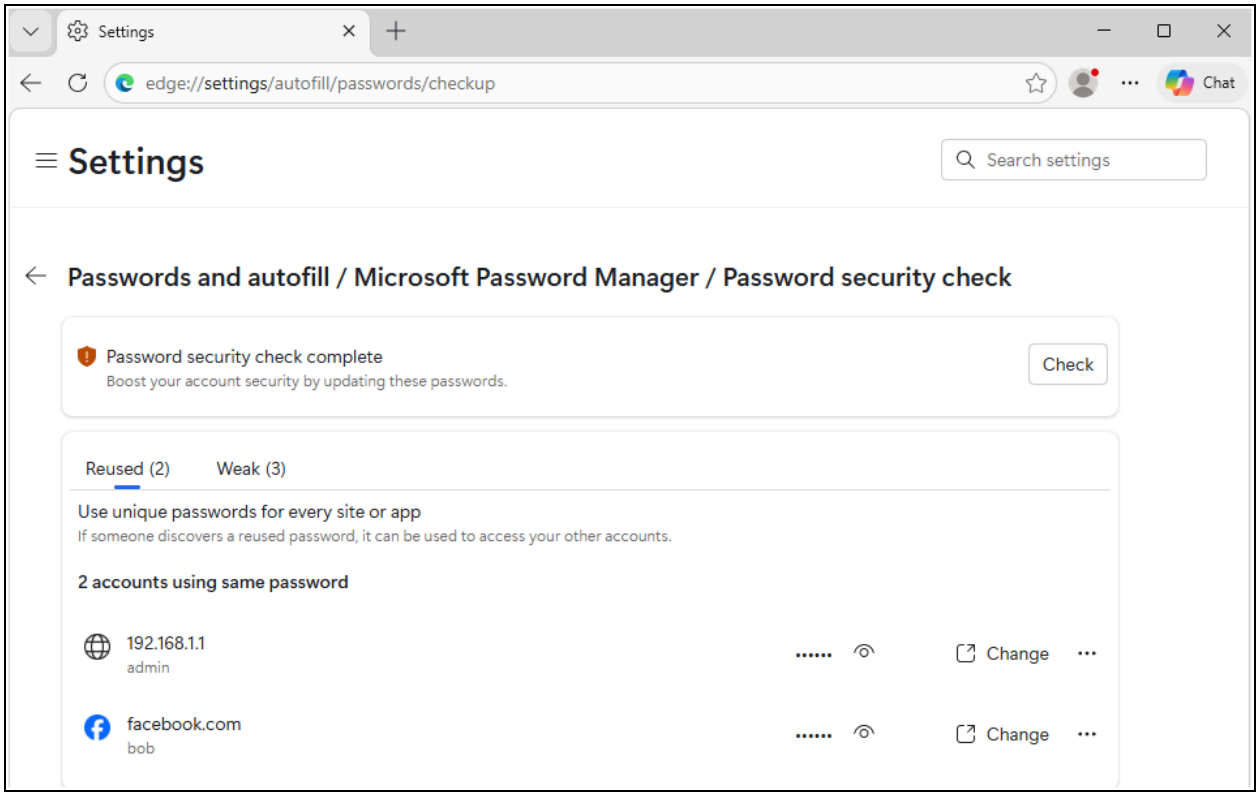
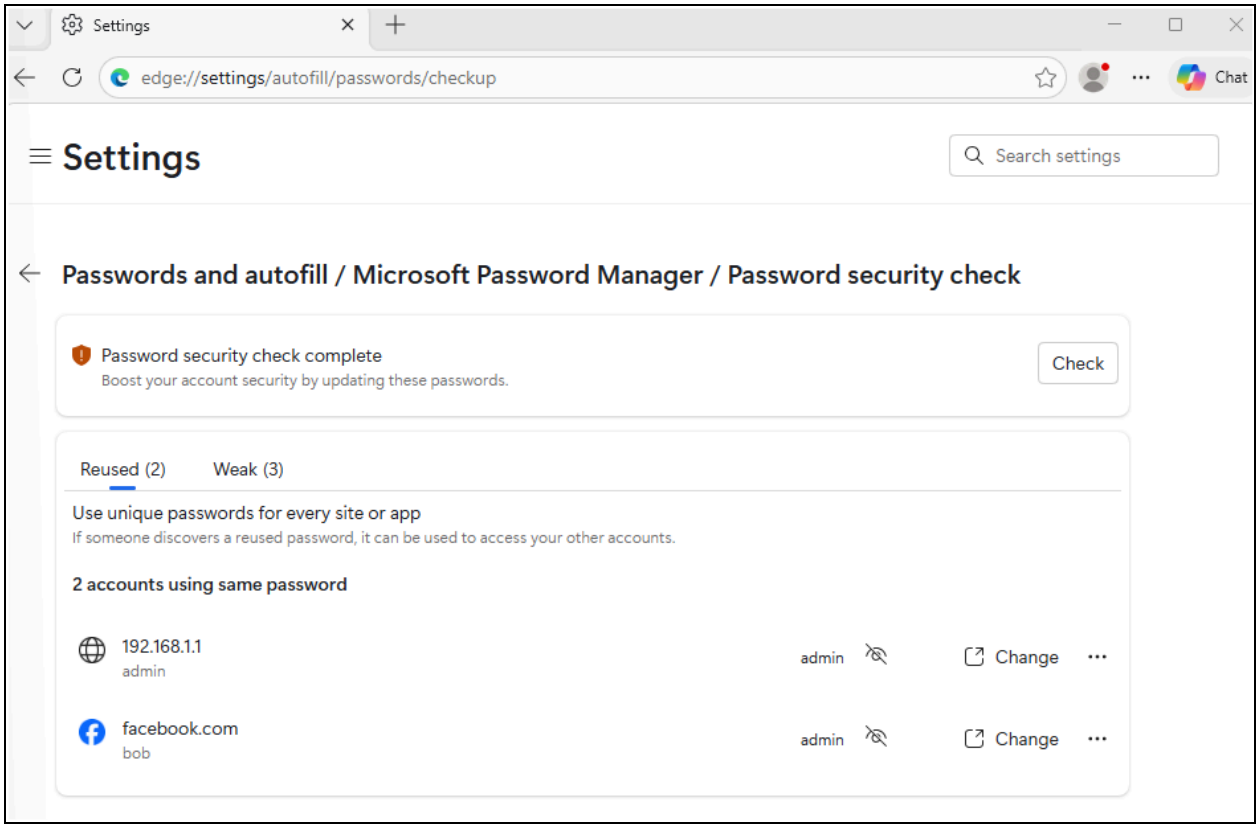
Click **check**

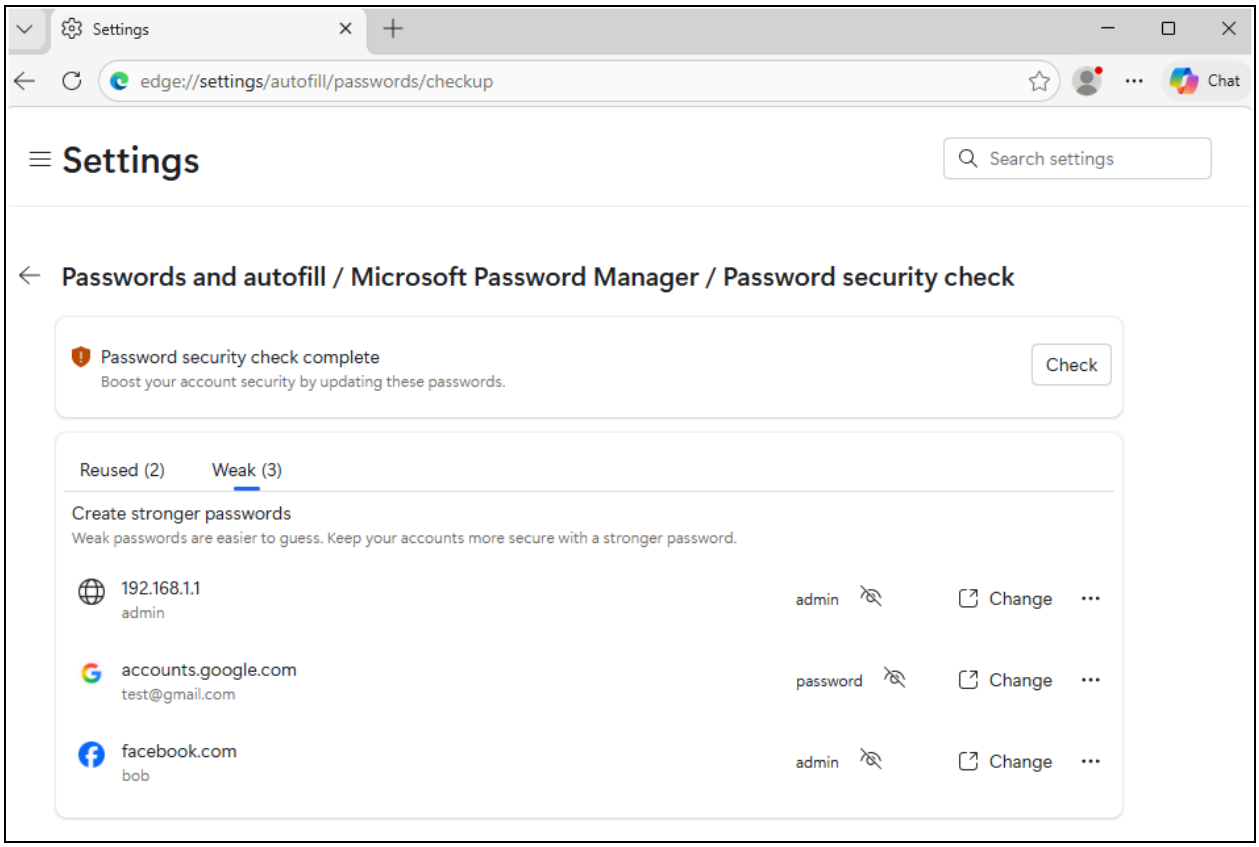


Note for demonstration purpose I, used reused password and weak passwords

To view the password click the eye log. (It asked for my password)



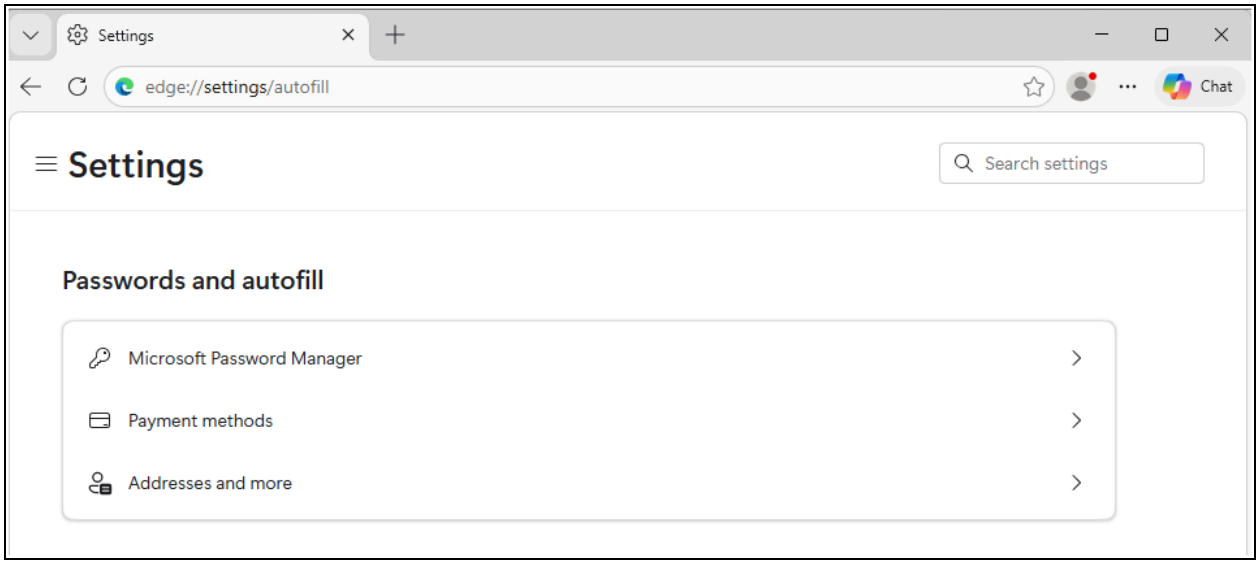
Now check for weak password by click **weak**



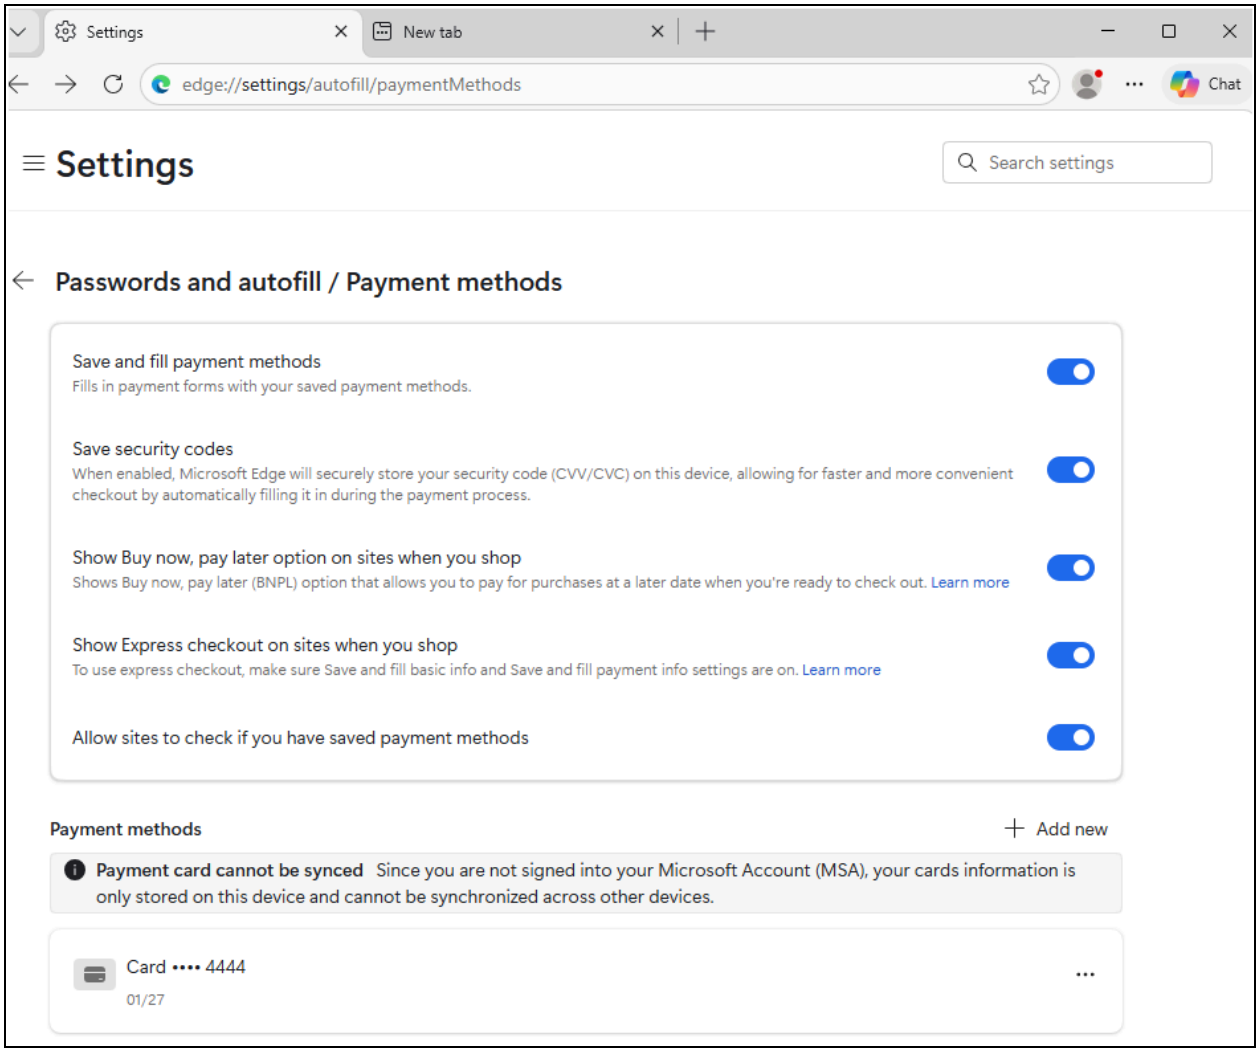
To change the password click **change** and change them

Go back (click back logo top left) or **edge://settings/autofill**

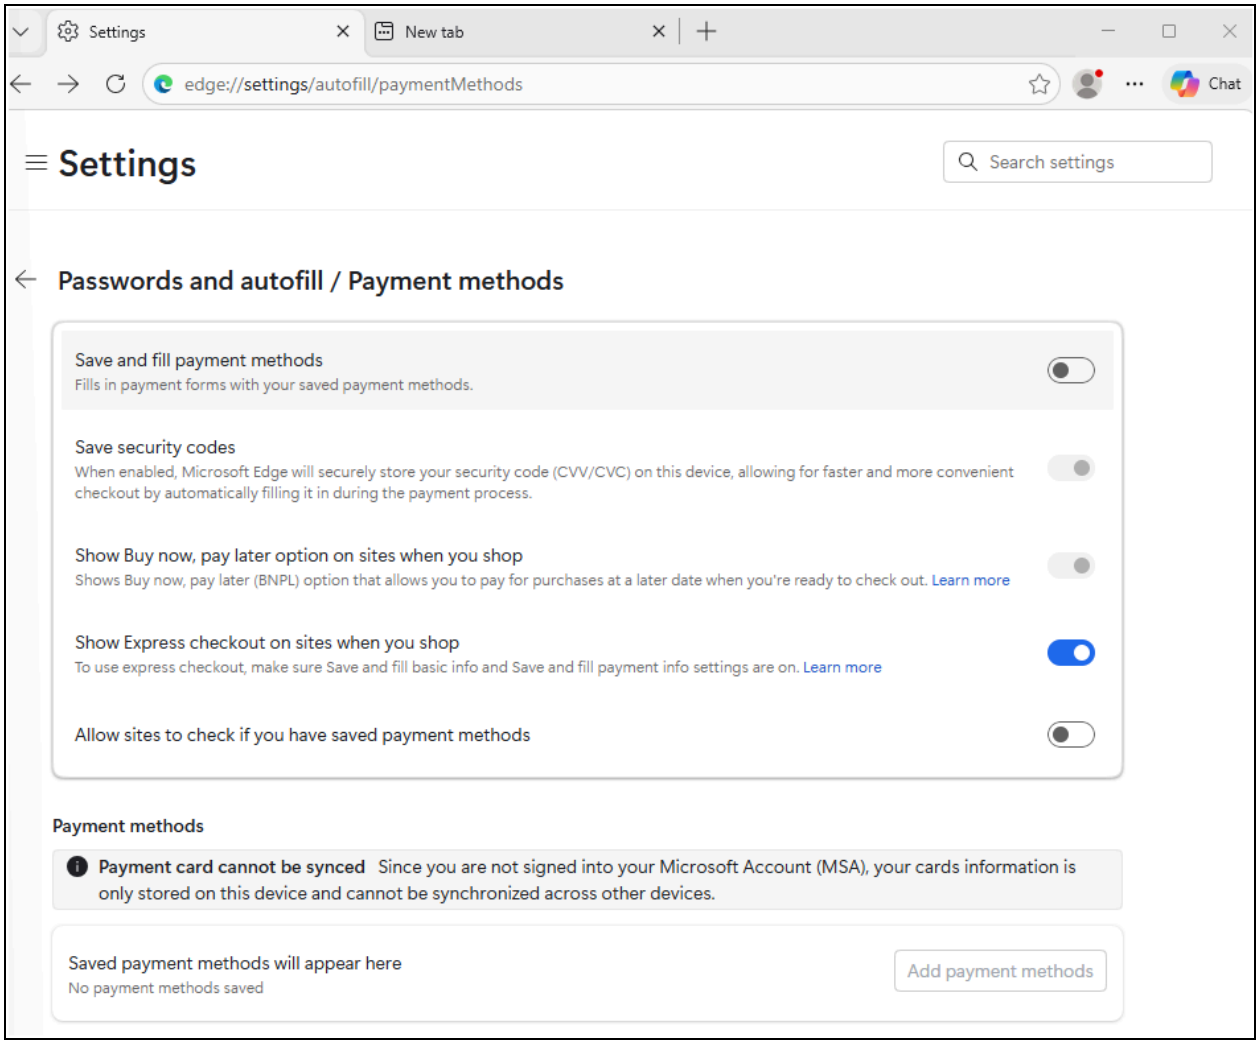
Payments



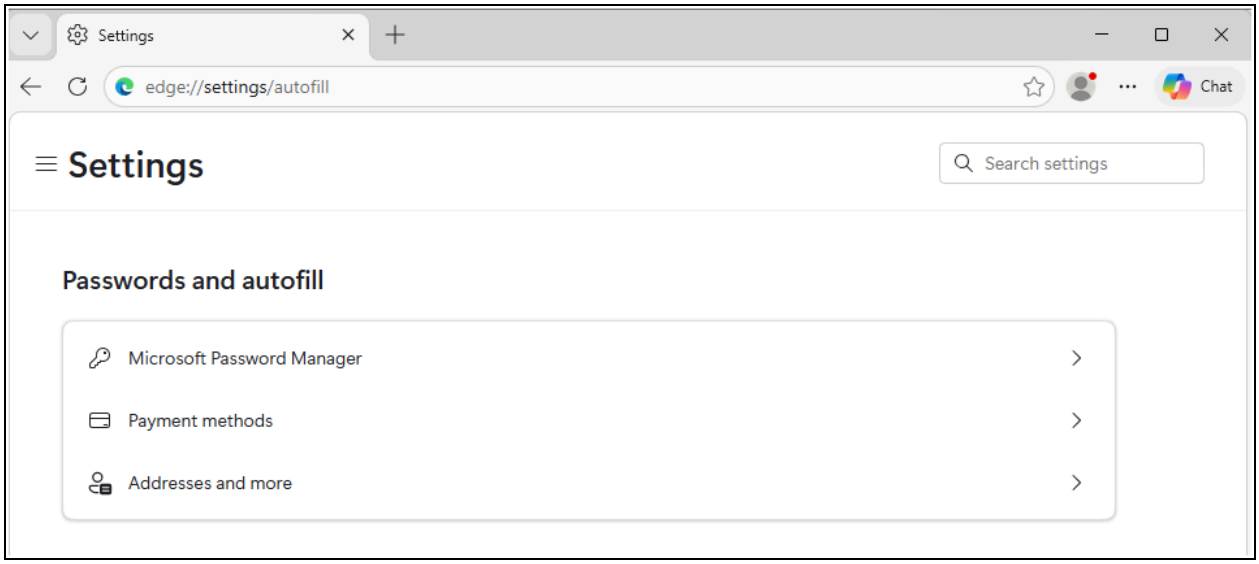
Click on **Payments methods**



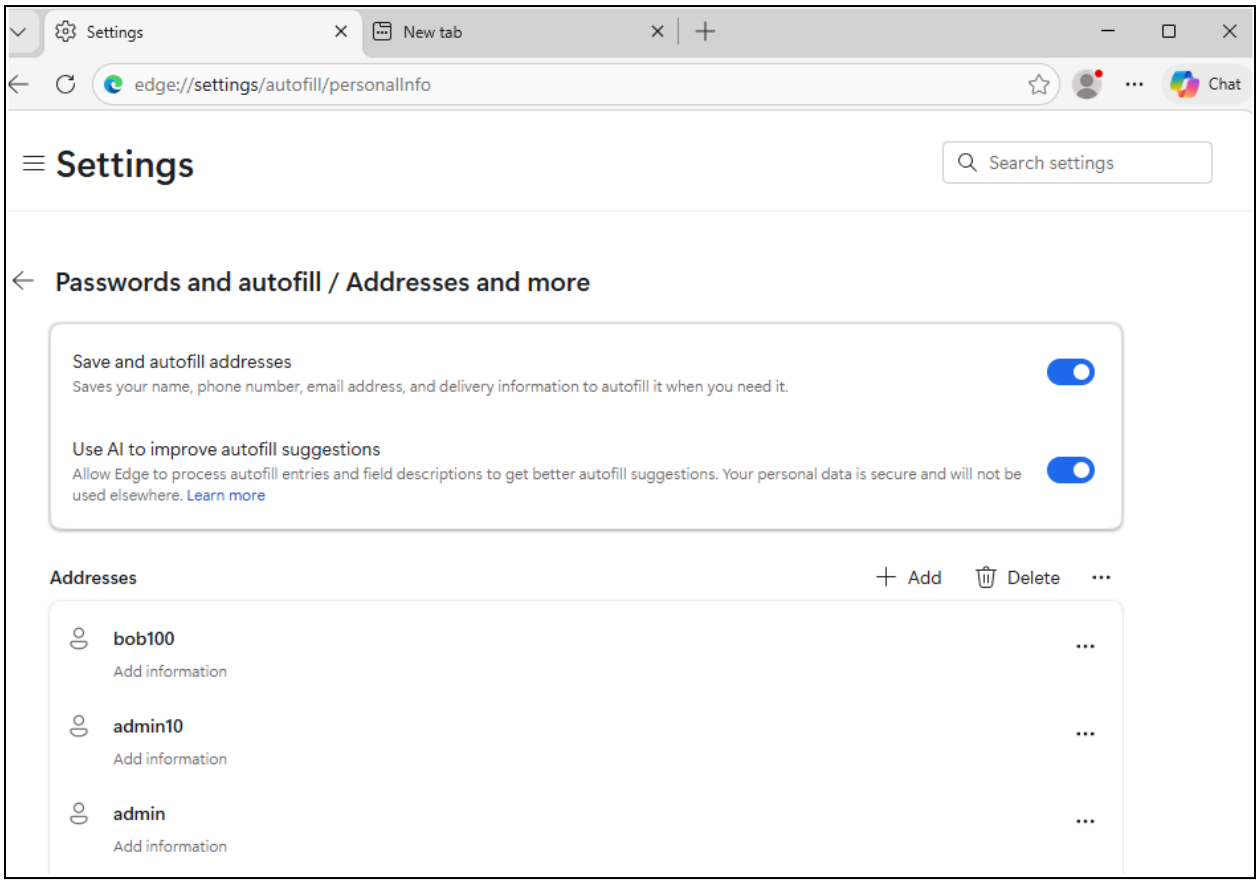
Disable **Save and fill payment methods**. I don't recommend you save payment methods.
Disable **Allow sites to check if you have saved payment methods**.



Click back (the arrow to left) **edge://settings/autofill**



Click **Addresses and more**



Enable **Save and autofill address** for convenience or disable it for security (just manually type the info and verify). **Enable** Use AI to improve autofill suggestions if you enable **Save and autofill address**.

Click back (the arrow to left) **edge://settings/autofill**
